4WD & Vehicle Accessories

TOUGH TRAILS. PAJERO SPORT PREVAILS

With high approach angles and rigid strength, this bar allows you to challenge the tough terrain and fit out all the accessories you need to conquer your next journey.

Available in our durable satin textured powder coat or they can be colour matched to suit your vehicle.

From Dakar to the Outback, Pajero has redefined the 4WD since 1983. Designed to dominate the grueling Dakar Rally, Pajero prevails over the toughest trails with bold styling that stands out wherever you are. Fitted with the refined Opposite Lock Bull Bar along with a wide range of vehicle specific accessories, you too can take your Pajero Sport on the adventure of a lifetime. From the suburban streets to touring and towing, or even a proper bush bash, Opposite Lock has the gear to get you there and back again.

BAR BENEFITS

The Opposite Lock Bull Bar has evolved to travel every journey – from day-to-day driving to tackling some of the most extreme adventures.

Recessed LED indicators are packaged with the bar and designed to reduce the risk of damage

Three CB aerial mounts, ideal for UHF, Phone Aerial and Sand Flag - two located on the passenger side, one located on the driver's side – with each mount utilising a quick fit cut out so additional accessories can be easily installed later

Driving light mounts are compatible with all major brands

Optional directional lighting which can be ordered and fitted to the bar to replace the OEM light

Hi lift jack points conveniently located under the overriders for stability and strength

The location of the winch and fairlead has been designed with accessibility for when you need it most. The low winch mount allows for optimum vehicle recovery and is built to suit a wide range of popular winch models

ACCESSORISE YOUR RIDE

Opposite Lock have all the accessories to make it your adventure. We can supply and fit the right gear from the best brands, backed by our nationwide warranty!

If you are looking for creature comforts, or the gear to help you conquer the off-road track, the Opposite Lock team will help you build the car for your next Adventure Driven experience.

UHF Packs give you the ability to go anywhere and be confident in your ability to communicate with those around you

Designed to fit perfectly to your Mitsubishi's factory mounting points. Rhino-Rack backbone will help distribute the weight of your luggage evenly across the body of your Pajero Sport

Opposite Lock Awnings are waterproof, UV protected and come sealed safely in a heavy-duty nylon reinforced PVC bag. They are perfect for creating a shelter from the elements. All awnings come with 5v LED lighting strip and mounting brackets

WHAT GEAR'S ON THE PAJERO SPORT?

- A. GME 4wd Pack
- B. Rhino Rack Backbone system and Platform
- C. Opposite Lock Awning
